

KAUR Keeps The Campus In Tune

Kaur spins off another year of great entertainment on Augustana's campus.

The station has settled into their new location in Tuve Hall and has begun to expand and broaden. Since increasing to 680 watts, not only has KAUR attracted more listeners from further distances but also has gained popularity with a new variety of programming.

The KAUR staff introduced Dr. Dimento and numerous other special interest shows dealing with jazz and soul to rock 'n' roll.

The added features and extra effort from the entire staff have benefitted the station. KAUR was awarded the Best of Class Addy award for media self-promotion.

The station's General Manager Dan Lund feels quite proud of their achievement and the station's progress.

The station is well-equipped for many number of needs. We have some of the best equipment and we're proud of it! KAUR is the open door if you're interested in broadcasting."
